

Quiz 1

1. In his book “How We Learn” Benedict Carey describes the Forget to Learn principle. What does he mean by this and why is it important?

2. Answer the two questions below and explain your answers. If you feel that there is any ambiguity in either of the questions, feel free to clarify the question and answer your clarified version.

Mr. Jones has two children. The older child is a girl. What is the probability that both children are girls?

Mr. Smith has two children. At least one of them is a boy. What is the probability that both children are boys?

See Back Too

3. Take an example from your self experiment and explain how you could use the “Concrete” principle from “Made to Stick” to make learning this example more sticky.
