

Homework 27

Due by lab Friday, May 11th

Reading:

1. Our final reading returns to the question of social justice in education and takes up the question of how this connects with science. I look forward to hearing your thoughts on this! Read the Introduction and “Recovery” chapter of [Ivan Illich’s *Tools for Conviviality*](#). (11 pdf pages, about 22 text pp.)

Podcast:

2. Listen to Charles Duhigg’s talk [“The Power of Habit: Why We Do What We Do in Life and Business”](#). I encourage you to listen to the question period as well as the main talk.

To turn in: Illich’s book is about making tools that support humans to live their lives enjoyably, tools that are convivial. Write a paragraph exploring how to utilize the tools that we have studied in this course to support life as you want to live it.
